

All Thermometers Will Assist in Achieving Your HACCP Requirements

Digital Waterproof Thermometer

- 7402210** Digital waterproof thermometer, -40° to 392°F with 5" probe and protective red cover w/clip, 1.5V battery included
- 7403032** Digital waterproof thermometer, -100 to 500°F with 3 probes attachments and kevlar protection.

7402210

7403032

Digital Infrared Thermometer

- Point and shoot with instant results
- Temperature Range: -25° to 750°F
- Response Time: <= 500 milliseconds
- Ambient Operating Range: 32° to 120°F
- Power: 9V battery
- Weight: 11 oz.

- 7406735** Digital infrared thermometer with laser sighting, 0° to 500°F

7406735

Waterproof Thermocouple Thermometer

This quick response thermocouple is equipped with a wide temperature range make it ideal for most food service/ food processing applications.

- Temperature Range: -100° to 999°F
- Ambient Operating Range: 32° to 122°F
- Power: 2 AAA alkaline batteries /1800hours

- 7402000** Waterproof thermocouple, -100° to 999°F, LCD display, Large and easy to read

7402000

Digital Thermometer with Burger Probe

An essential tool for those requiring the highest degree of accuracy and durability.

- 7404040** Digital thermometer with hamburger probe
- 7403036** Vinyl carry case w/belt loop for digital thermometer with probe (not pictured)
