**Jet Net
Made in U.S.A.**

HOLDS JUICES IN = HIGHER PROFITS & BETTER FLAVOR!
ELIMINATES COSTLY HAND TYING OF ROASTS!

Jet Net is a tubular plastic netting knitted from the finest rubber and cotton yarn under strict supervision and inspection at the Jet Net plant. Jet Net has superior holding power and eliminates costly hand tying. Heat tested to withstand all normal roasting temperatures, Jet Net is easy to remove after cooking. Use it creatively and turn odd cuts into profits. USDA approved, meets U.S. military specifications.
