

Eye appeal is buy appeal when an attractive product is visible to the consumer. Quality vacuum packaging machines help your product look better and stay fresher longer—with less rewraps and product shrinkage, and returning higher profits. Your product always remains in full view, yet safe from the effects of oxygen. Drying out, changes in color and taste are reduced to lowest possible levels. All Bizerba vacuum packaging machines are built to provide years of trouble-free dependable service.

CONSIDER THE ADVANTAGES OFFERED BY SIPROMAX QUALITY VACUUM PACKAGING MACHINES:

- Double impulse sealing provides safe, leak proof seals on packages
- High capacity vacuum pumps provide 99.7% vacuum for maximum shelf life
- Inspection windows in chamber covers permit process viewing
- Ideal for perishables meeting FDA criteria for safe products
- Programmable control panel available for all models (optional)
- Operator training program provided in accordance with FDA guidelines
- Automatic bag cut off standard on all models
- Caster mounting of floor models allows convenient moving for repositioning and cleaning
- NSF approved

Single Chamber Vacuum Packer

A very popular model, the single chamber vacuum packer gives you the convenience of table top vacuum packaging. Available in manual control as well as the electronic programmable control panel, and two cut-off bars. **GAS FLUSH OPTIONAL.**
