## Adjustable Wire Shelving (OPEN STEEL ROD SHELVING)

Ideal for the Food Service Industry. Shelves have 1/4" safety rim to prevent contents from being accidentally pushed off. Shelves can be spaced in increments of 1" and are easily reshaped without disassembling the unit. Quicker, easier, assembly with patented joining device which locks shelves in place for absolute rigidity. No nuts or bolts needed. Common posts can be used where two units join together. Shelves load from all four sides and shelf ribs run the short way making it easier to slide items from front to back. Chrome finish, with a baked-on coat of clear epoxy over this finish. Will resist rust. All units are 74" high. NSF approved.

### Four tier units—All shelves adjustable

- 6351380** 3-footer, 18" wide, 4 tier, wt. 52 lbs.
- 6351500** 3-footer, 24" wide, 4 tier, wt. 68 lbs.
- 6351650** Extra 18" shelves, wt. 9 lbs.
- 6351800** Extra 24" shelves, wt. 13 lbs.
- 6351410** 4-footer, 18" wide, 4 tier wt. 64 lbs.

COLORS AND FINISHES!

## Adjustable Wire Shelving (OPEN STEEL ROD SHELVING)

AVAILABLE IN  
CUSTOM COLORS!

Space saving wire platforms let you store bulky items off the floor in less space than if regular shelving were used. Cleaning is no problem since wire platforms give you clearance from the floor on all four sides. Also, the open-wire construction provides air circulation and minimizes accumulation of dust and moisture on the platform. Assembly required.

## Wire Wall Mount Racks

AVAILABLE IN  
CUSTOM COLORS!

### POST-TYPE AND DIRECT WALL MOUNTS (FOR WIRE & SOLID SHELVING)

- Ideal for storing items conveniently overhead or above work surfaces.
- Accommodate all Super Erecta Shelf sizes and types of shelf. Wire legs on support fit corner openings of shelf. Metal caps are provided to cover openings.
- Single and double supports—double support used for mounting adjacent shelves; single supports at ends of shelving tier. Available in nickel-chrome or stainless steel.

### POST-TYPE MOUNTS

- Versatile—posts and supports are available to hold anything from a single small shelf to many tiers of shelving running continuously along a wall.
- Fast, secure assembly—post has rolled, circular grooves along its entire height at one-inch intervals. Tapered, plastic split-sleeve locks around any groove, and matching taper in opening on shelf support provides secure positioning.
- Adjustable—shelf supports and shelves can be positioned or repositioned on the post in one-inch increments.
