BIZERBA

GSP H

Entry Level

6750490

GSP H Manual premium gravity feed slicer with top ergonomics & safety

Extremely robust and engineered to provide the highest yield, greatest degree of hygiene and Operator safety, making it easy to slice even the heaviest of products with its inclined carriage. The powerful ½ hp blade drive ensures reliable and consistent performance across a variety of slicing tasks. Its design includes a 1 revolution thickness knob for consistent slice thickness's among multiple Operator's, a seamless gauge plate with sophisticated drainage to maintain a clean workstation.

Additional safety features include a Carriage Interlock, No-Volt Release, Automatic Shutoff if the Operator walks away, Thickness Knob Shutoff and Zero Blade Exposure during the cleaning process.

Features:
- Seamless, Anodized Aluminum Body, Carriage, Gauge Plate and Blade Cover.
- Powerful blade drive with 13Inch Hard Chromium Blade,
- Hygienic, Easy to clean with standard Lifting Device
- Dishwasher Safe, Remote Sharpener for consistent sharpening amongst multiple Operator's.

GSP Hi

Illuminated Knob

6754490

GSP Hi Advanced Manual slicer with Illuminated Thickness Knob

Features:
- One-Revolution, Illuminated Thickness Knob for increased Operator safety.
- Optional Safe Blade Removal System
- Interlock Sharpener (optional)
- Veg Chute, Slaw Tray Accessories available

GSP Hi-W

Portion Scale

6759990

GSP Hi-W Manual safety slicer with integrated portion scale

Features:
- Built-in portioning scale that can be calibrated to lbs., ounces or grams.
- HMI Display with Sharpening Indicator
- Removable scale platter for easy cleaning.

GSP HD

Semi-Automatic

Ergonomic

6751190

GSP HD Automatic slicer with energy efficiency and hygiene standards

The GSP-HD automatic slicer sets new standards in ergonomics, hygiene, safety, and energy efficiency. Its inclined carriage and servo support make slicing heavy products easy. The intelligent Emotion® blade drive reduces energy use and noise, keeping products fresh. An optional portion scale provides precise weight control via a touch display. Ideal for kitchens and sales counters, the GSP-HD offers various configurations and easy cleaning with a lifting device for quick access.

Features:
- Servo support
- Emotion® blade drive with 13inch Blade
- Portion scale (only available on Illuminated models)
- 3 Speed and Stroke selections standard

Semi-Automatic

6754309

GSP HDi

6754309

GSP HDi Premium semi-automatic slicer with Illuminated Thickness Knob for greater Operator Safety

Features:
- One-Revolution, Illuminated Thickness Knob
- **Semi-automatic**
- Hygienic design
- Optional Safe-Blade-Removal System
- Veg Chute, Slaw Tray Accessories available

GSP HDi-W

6752190

GSP HDi-W High-efficiency slicer designed for demanding food service applications

Features:
- One Revolution, Illuminated Thickness Knob for Operator safety even with main power turned off
- HMI Display with 4 programmable preset selections by weight or slice count.
- Sharpening Indicator
- Hygienic and Energy-efficient

ICP

Strip Cutter & Tenderizer

7350150

ICP Multi-functional Tenderizer or Strip Cutter for continuous use

The ICP is ideal for daily use in food processing when using as a Tenderizer or Strip Cutter. Its Emotion® drive ensures efficient, quiet operation, making it perfect for continuous use. The hygienic design promotes easy cleaning and reliable performance.

Features:
- Moisture resistant on / off switch's with large pilot light.
- Standard receiving tray for product to discharge onto.
- Hygienic design with clear safety cover for optimal Operator visibility.

VSI Models: VSI F, VSI W, VSI T, & VSI TW

Fully Automatic Vertical Slicer with Precision and Integration

Suitable for Wash Down

HIGH VOLUME
Perfect for two shift production!

6750400
Fully Automatic Vertical Slicers

6758400

The VSI F Series Slicer offers a customizable solution for the Food Industry and Retail applications. Mounted on a mobile stand, the unit can easily be moved and then rests on 4 high friction feet. It's available with and without a built-in portioning scale and conveyor for higher volume applications. Slicing patterns include: Stacking, Shingling, Stagger Stacking and Circular patterns. Fully programmable and easy to operate ensuring precision and efficiency for your application.

Features:
- Available with built-in portioning scale for target weight slicing
- Maximum slicing speed of 60 slices per minute in full stroke
- Rated IPx5 for hose-down cleaning
- Channel Blade for reduced friction while slicing

VSI W & VSI TW
Target Slice by Count or Weight

Available Models:

6750400	**VSI F** Vertical Slicer
6759400	**VSI W** Vertical Slicer w. build in portion control
6758400	**VSI T** Vertical Slicer w. conveyor belt
6754003	**VSI TW** Vertical Slicer w. build in portion control & conveyor belt

VS12 D-V

Perfect for smaller productions

Automatic Slicer

6750607   **VS12 D-V Fully Automatic Vertical Slicer**

Features:
- Touchless depositing in Stacks, Shingle or Circular Pattern
- Moisture resistant keypad that is away from the drip zone
- One revolution thickness know for consistent slicing widths with multiple Operator's
- Can be placed on a Saturday table or optional mobile stand.
- ETL certified for NSF ANSI8 Sanitation and UL Electrical

VSP F

Touch Screen

Automatic Slicer

6758773   **VSP F Fully automatic vertical slicer w/ touchless depositing**

The VSP F ensures maximum hygiene with automatic, touch-free depositing. Its stainless steel depositing tray, chain assy., depositing fingers, and product feed are easily removed for cleaning. Innovative SmarterSlicing functions notify you when cleaning or maintenance is needed, ensuring optimal performance and a long service life.

Features:
- Touchless depositing
- Intuitive touch screen
- SmarterSlicing technology
- An optional portioning scale is available for applications that require sliced portions by weight.

VS12 F

6750300   **VS12 F Manual vertical slicer**

The VS12 F Manual slicer is a top-tier solution for professional kitchens, cafeterias, and sales counters. It features a 350mm (13.75") blade with 62 Rockwell to slice large, fresh / raw products.

Features:
- Robust ½ hp motor with 10 rib belt.
- Large Remnant Holder to secure product on the carriage
- Stationary support aiding the slicing large, fresh cuts of meat
- Top Mounted, moisture resistant keypad that is away from drip zone
- Zero blade exposure during the cleaning process

Perfect for Fresh Meat!

6750300

VSP

6750877   **VSP Advanced manual vertical slicer with SmarterSlicing technology**

Features:
- HMI Display with SmarterSlicing functionality
- Emotion® drive
- Stationary support aiding the slicing of large, fresh cuts of meat
- Top Mounted HMI display away from drip zone
- Illuminated Thickness knob for superior Operator safety.

GLM-I G5

SCAN ME
Shown w 4 Top & 2 Bottom Labelers

5950145

UL

Label Quantity CUSTOMIZABLE

Transformative
weigh price labelling system
for advanced packaging solutions.
5950145

The GLM-I Weigh Price Labelling System is engineered to deliver high efficiency, modular adaptability, and seamless integration in packaging and processing operations. Building on a legacy of over five generations of successful systems, the GLM-I is designed for unparalleled reliability and operational excellence. Its advanced features include mirror-inverted labelers for frontal access, automatic switching between labelers, and an ergonomic design that simplifies label roll changes and reduces setup time.

Features:
- Efficiency Redefined: Mirror-inverted labelers for frontal access, automatic switching, and ergonomic design reduce setup time and errors.
- Space-Saving Design: Narrow labelers optimize production area, reducing costs.
- Ease of Servicing: Quick-change components and tool-free maintenance minimize downtime.
- Industry 4.0 Integration: Seamless integration with modern software for centralized data management and smart processing.
- Interchangeable Components: Parts of the conveying system are interchangeable with existing models, enhancing compatibility and reducing replacement costs

GLM-Ievo with CleanCut ® applicator

Linerless Labels
5955390

Advanced industrial labelling system with CleanCut® for high efficiency and superior product presentation.

5955390

The GLM-Ievo CleanCut® is an innovative industrial labelling system designed for high-performance weighing and labelling of packaged products. With the ability to label up to 120 packs per minute, it ensures precise and visually appealing labelling even for products requiring a large amount of information. Its modular design allows for easy integration and customization, making it versatile for various applications, including meat, seafood, produce, and bakery products. Economical maintenance is achieved through remote support and easy-to-replace parts, minimizing downtime and reducing total cost of ownership.

Features:
- Strong performance: High productivity up to 120 ppm—Precise labelling for an appealing product presentation.
- CleanCut® Linerless Solution: Weighing and labelling technology + CleanCut® Linerless labels + software + global service from a single source.
- Economic maintenance: Reduced downtime and TCO via remote support, Easy-to-replace wear and tear parts: belts, printhead.

CWDmaxx

Check Weigher

5950293

Strong entry model in checkweighing technology.

The CWDmaxx dynamic checkweigher is the ideal solution for efficient, automated, and cost-effective weight control of prepacked products. Handling up to 250 packages per minute with IP54 protection, it is perfect for dry applications. The CWDmaxx offers high performance with a wide range of solutions and options to meet diverse needs

Features:
- High Throughput: handles up to 250 packages per minute.
- Versatile Weighing Range: From 10 grams to 3,000 grams.
- User-Friendly Interface: 12" color touchscreen with alphanumeric, customizable keyboard.
- Robust Construction: Stainless steel version 1.4301 with IP54 protection.

High Throughput

5950293

CW-RVA

Check Weigher

Entry Level

5950782

5950782

Bizerba's entry-level checkweigher for efficient and reliable performance.

The CW-RVA dynamic checkweigher is engineered for optimal performance with user-friendly features. Designed for quick and easy installation without the need for a service technician, the CW-RVA ensures consistency in product weight, making it an essential tool for the food and packaging industries. Its simplified interface and modular design enhance operational efficiency and adaptability, providing a high-performance solution that meets stringent quality standards.

Features:
- 12" Color Touchscreen: Enhances usability and interaction, allowing for easy monitoring and adjustments.
- Quick and Easy Installation: Comprehensive guides enable customers to set up and run the machine independently.
- High Throughput: Capable of processing up to 150 packages per minute, ensuring efficient production flow.
- IP54 Standard Protection: Robust construction with an option to upgrade to IP65, ensuring durability in demanding environments.
- Design: Simple design using standard components for extreme fast delivery times.

8

GLM-E 50

Weigh Price Label

Entry Level

5950456

5950456

Bizerba's entry-level automatic weigh price labeler, cost efficient and reliable.

The GLM-E 50 weigh price label is engineered with user-friendliness and simplicity in mind. Durable, saltwater resistant aluminium construction combined with quick belt change features ensure ease of use and longevity. A condensed footprint makes the GLM-E 50 perfect for small or start-up businesses.

Features:
- Features:
- 12" Color Touchscreen: ease of use and freely customizable.
- Scale sizes of 400mm and 700mm with a max. weighing range of 15kg.
- A max pack rate of 50 to 70 packs per minute makes the GLM-E 50 ideal for small production runs in commissaries and other businesses .
- Optional reject system gives the system check-weighing function.
- A combination of one top, two top or one top and one bottom printer / applicator makes suitable for most of the applications.

5950569

5951710

iL Pro/GLP/iS 10/20/25

Precision and efficiency combined in one powerful system.

The GLPmaxx printer, iL Professional 50/150 load receptor, and iS industrial weighing terminal work together to deliver an unparalleled solution for modern industrial applications, ensuring precise weighing and reliable labelling. Combined with a washdown enclosure for the GLP, the GLP / iL Professional combination is the ideal entry in the weigh price labelling market.

5954576 GLPmaxx Label Printer Features:
- Versatile for various industries
- Network compatible and tool-free maintenance
- Linerless label processing for efficiency
5950569 iL Professional 50 / 150 Load Receptor:
- High-resolution weighing up to 150 kg
- Durable stainless-steel construction
- Washdown – IP69
- Suitable for multiple industrial uses

5951710 iS10 Industrial Weighing Terminal:
- Robust design with IP69 protection for harsh conditions
- Easy operation with large keys and acoustic feedback
- Suitable for numerous applications in various company areas
- Flexible mounting options for table, wall, countertop, or stand
- Lights for over / under weight for fast portioning of product

Metal Detector iMD pro

Meets HACCP Standard

4200463

4200463

Compact and versatile metal detector with high detection sensitivity for food industry applications.

The Bizerba iMD pro is a compact and reliable metal detector for the food industry, designed to detect contaminants like steel and non-ferrous metals in packaged products. It features adjustable height and belt speed for optimal integration into production lines, with easy operation via a 7" touch screen. Available in Single, Multi, and Multi-Simultaneous Frequency options, it meets HACCP, IFS, and BRC standards, ensuring high sensitivity and easy cleaning with its IP65 hygienic design.

Features:
- Variable height adjustment for sensitivity.
- Tool-free belt replacement for easy cleaning.
- Multi-frequency options for diverse applications.

LabelSecure S

Ideal for GFSI inspections

5950577

5950577

Bizerba's innovative vision inspection system for label accuracy and quality assurance.

The LabelSecure S Vision Inspection System revolutionizes packaging solutions by enhancing food safety and quality assurance. Designed for accurate verification of label information, it offers a rapid, non-destructive quality control process, ensuring that labelling is correct and compliant. This system meets automation, performance, and sustainability goals, reducing paper records and packaging waste while boosting operational efficiency.

Features:
- Enhanced Accuracy and Traceability: Provides precise and reliable label inspection, checking label presence and position, reading text (including allergen declarations), and verifying 1D & 2D codes.
- Compact and Efficient Design: Ideal for automating required GFSI (BRCGS, IFS, M&S,SQF etc.) inspections and documentation in small areas with limited budgets, ensuring correct labelling on each package.
- Sustainability-Driven: Digital tracking and automatic quality reports reduce waste by digitizing paper logs.
- Robust Construction: IP65-rated enclosure ensures durability in challenging environments.

Load receptor iL Professional150SPM/SP

Ideal for Hygienically Sensitive Areas

Can Handle up to 150kg

5951507

Hygienic, corrosion-resistant load receptor ideal for food and chemical industries.

The iL Professional 150SPM/SP load receptor is designed for hygienically sensitive areas in the food and chemical industries. Engineered to minimize bacterial contamination, it features an ergonomic design with easy-to-clean surfaces, inclined for optimal drainage. The scale's IP69 protection ensures resistance to aggressive cleaning agents and high-pressure cleaners, making it suitable for hazardous areas classified as zones 1/21 and 2/22. This load receptor can handle weighing ranges up to 150 kg and is perfect for applications requiring precise and hygienic weighing, such as seafood, poultry, and dairy products.

Features:
- IP69 protection for harsh environments.
- Ergonomic, easy-to-clean design.
- Resistant to corrosion and contaminants.

KSL

GRKSL   KSL Grasselli Slicer

Horizontal slicer for fresh boneless meats with a cutting capacity of over 2,000 kg/h and extreme precision in the thickness of the slices.

Adjustable cutting parameters and highly efficient, "gentle" technology for the most delicate cuts.

Features:

- **Perfectly parallel** horizontal slices with the Grasselli multi-blade cutting system.
- **Fully adjustable** cutting parameters for the best output also for particularly delicate products ("through slicing" option for a 100% throughput).
- Conveyor belts can be opened for perfect cleaning and **improved hygiene**.
- Possibility to be placed in **completely automated lines**.
- **No tool** necessary to prepare the machine for sanitation and no part to be disassembled.
- Cutting-edge design with continuous welding and rounded edges to ensure optimum hygiene.
- **Butterfly cutting** option **can be applied in the machine**.
- Frame built completely in food-grade Stainless steel.

No Tempering Required!
Multiple Slices = Greater Yield

6757900	NSL 1000 High Volume Slicer, Increased cutting width

Vertical meat slicer for obtaining perfectly even slices of bone-in or boneless meat, thanks to the Grasselli multi-blade cutting system.

Extreme precision even for thinner slices, and high yields: a technologically advanced solution for processing fresh meat.

Features:

- Optional **quick blade changing system** for replacing the entire set of blades in just a few minutes.
- **No tools needed** to prepare for the cleaning process, sanitation and blade replacement.
- **Adjustable cutting parameters** to allow the **maximum quantity of product** to be sliced.
- Possibility to slice **bone-in meats** without chipping.
- Possibility to cut also **crust frozen meats** with a temperature of -4/-5 degrees.
- **Extremely versatile** with a wide range of cutting options.
- Cutting-edge design with continuous welding and rounded edges to ensure **greater hygiene.**
- **Special solutions** available on request (such as cutting chambers with differentiated cutting thicknesses).

Grasselli Slicers
Monthly Blade Exchange Program

*PBI will conduct a **monthly PM and blade exchange** on the Grasselli slicers for the following:*

- Replace dull blades with re-sharpened blades (Approximately 50 blades per blade set).

- Replace broken or damaged blades with new blades.

- *We recommend re-sharpening blades after every 40 hours of slicing time.*
- *We recommend keeping 1 full set on hand in your store.*
- *Replace blades after 40 hours of use unless broken.*
- *Additional repairs if authorized will be charged at regular service labor rate.*
- *All parts will be quoted in advance.*
- *A flat travel and labor charge is applied based on Grasselli Location.*

Retail Wrappers

AW-5600ATII PC Based Wrapper

8055600

Fully integrated weigh-wrap-label system designed for operational comfort and environmental friendliness

PBI Part# 8055600

DIGI AW-5600ATII is a high-performance automatic weigh-wrap-label system designed for operational comfort and environmental friendliness. Reduces work load with easy and simplified operation, and conserves film and label consumption to achieve lower cost and a smaller environmental footprint.

High Productivity

Increases productivity with high speed processing of up to 36 packages a minute. Automatically determines the optimum wrapping conditions by adjusting the degree of film stretching, depending on commodity size fed into the machine.

Economical & Ecological

Super-stretch technology makes the best use of film and helps reduce film usage, while linerless labels eliminate wasteful margins and help reduce label consumption. An energy conservation mode helps reduce power consumption while the machine is not operating.

Labelling Options: Twin Labeler, POP Labeler, Bottom Labeler, Linerless Labeler

AW-5600FXII Wrapper

PBI Part# 8055600FX

DIGI AW-5600FX is an integrated semi-automatic weigh-wrap-label system featuring the enhanced Pick-Pack System.

Handles a Wide Range of Wrapping Needs

The FX is superb at wrapping a challenging array of products. Fragile trays, irregularly-shaped trays, and even items without trays like fruits and vegetables, are quickly and beautifully wrapped and labelled. The FX will drastically reduce the need for cumbersome hand wrapping operation.

Small Foot Print

Only a small footprint of 31.5"-36.8" is needed for installation.

Wraps Faster

Processes 17 packs per minute (max). This increases operation efficiency.

Elevated Type
SM-120EV
361 (W) x 470 (D) x 531 (H) mm

PBI Part# 5958120

The SM-120B is a practical, functional scale that gives you ultimate flexibility with labelling. Linerless labels are auto-sized to fit the label contents. You can easily display all the necessary information, including nutrition facts and allergens, while eliminating wasted label space that is common in labels of fixed size. The scale is capable of printing receipts as well.

Linerless solution & Allergen printing

Many regions require clear display of nutrition facts and allergen information on product labels. Standardized label sizes do not account for varying lengths of information, which often results in wasted label space. Linerless labels are a single continuous label that are automatically sized to fit the information for each product. Less wasted space means less wasted labels.

Reliable Hardware

The SM-120's printer gives you more than 330,000 cuts per oil tank, making it virtually maintenance-free. The thermal head uses EPROM; the thermal head's serial number, accumulated printing length and number of cuts are recorded, and self dot diagnosis is available. All information can be accessed from the cloud. @Label cloud software can also connect with a partner auditing company to send data in the requested format. 60mm printing width with quick printing speeds of up to 110mm/s.

Floating Clerk

Up to five scales can be networked together, which is useful for price changes and for the floating clerk function, where users can start a transaction on one scale and finish the transaction on another.

Fiscal memory function

A microSD card slot is equipped on the mainboard. Insert a 4GB SD card for fiscal memory. This function complies with the latest European fiscal regulations. Transaction data is also written into fiscal memory, and cannot be erased. 4GB provides storage up to 10 years, and a PC tool is available to read the data.

Pour

PBI Part# 1802400

All-In-One Bulk System, DIGI's tare-free streamlined solution for the bulk area. From pantry staples to spices, herbs and even vinegars, customers can view product weight and price in real-time directly on the Hopper, Scoop and Liquid Scales while purchasing only the amount they need.

Frictionless Bulk Shopping

With the All-In-One Bulk System, weight and pricing information of the dispensed item are automatically displayed on the console's screen for label printing, thus simplifying the operation process.

Ease of operation by eliminating the need to search for PLU. Multiple shoppers can operate simultaneously . No taring of container weight needed.

Weigh as You Dispense/ Scoop/ Pour

To accommodate different container-filling methods and dispenser types, this sustainable solution incorporates 3 types of scales so that customers can weigh as they like.

DicR

Perfect for Taco Meat Production!

Reduce Labor Increase Sales

2500090

Strongest Dicer of its class - motor power of 2,6 kW CE

Hand diced results are achieved by using the unique four-dimensional pre-compression which quite simply holds the fresh meat firm while it is being cut through extremely long grid blades. Four dimensional pre-compression guarantees for the perfect cutting edges all-around.

Refined shape of the slice-cut knife ensures a powerful, smooth and clean cut. Ergonomic single-handed operation with lengthwise chamber opening; extra durable cutting grids to cope with hardest workload as standard feature, including a time saving double chamber system assures loading and dicing together.

Piston advance at choice continuous for high volume cutting with double or four-bladed knife or intermittent cutting with single cut knife achieving precise cubes. Minimum set up time to change grid sets, no tools required!!

Features:
- Unmatched hydraulic performance - more than double oil-volume as equivalent Dicers
- Unbelievable cutting length - 45 mm infinitely adjustable
- High throughput - up to 560 cuts per minute
- Extremely long grid blades - provide cleanest cut through meat and sinews to give separate cubes with perfect edges all-round
- Excellent machine handling - visual signal for loading readiness, double chamber system, single-handed operation with lengthwise chamber opening
- New style hygiene door
- Automatic positioning of the slice-cut knife after each cutting cycle
- Visual signal for loading readiness
- Mobile on rolls

Mainca Mixer/Grinder

Introducing the new MG-95 Hybrid Mixer with Grinding Capability.

IDEAL FOR SAUSAGES, HAMBURGERS & GROUND BEEF

145LB CAPACITY

Mainca has Revolutionized the concept of the "Mixer-Grinder" with our new MG-95 Hybrid MIXER with Grinding Capability.

Mainca's unique "Sliding Gate" Tub Seal separates the grinding head from the tub and allows the MG-95 to perform as a True Mixer. The tub can then tilt to unload the mixed product without regrinding.

It is perfect for specialty products such as Gourmet Hamburger Mixes, Pasta and Potato Salads, Sausage Batters with Encapsulated Citric Acid, and any item which benefits from an exact timed mix without additional grinding.

- Programmable Timer
- Store up to Ten Timed Programs
- All Stainless Steel Head
- Built-in Splash Guard
- Reverse Worm Jog
- Rear Mounted Backsplash

- Two motors
- Pneumatic Foot Switch
- Optional Castors
- Open-Grate Style Safety Cover
- "No Tool" Disassembly

2856493   MG-95 Hybrid Mixer/Grinder. Three Phase. Stainless Steel. 24.7 gal, w/ grind speed up of 55lbs per minute 220v, 60hz

2856495   MG-95 Hybrid Mixer/Grinder. Single Phase.

PBI's Single Chamber Chicken Fryer - Gas or Electric

2600530

Satisfy customers with consistently great-tasting foods. The fryers large capacity have a 80-lbs. (40 liter) fry pot oil capacity, and a cooking depth of 4" (102mm). These fryers are specifically designed to fry bone-in chicken, other breaded products, and menu items requiring larger frying area.

Maximize your profits and make the most of your energy dollars with innovative design changes that have improved the efficiency of the Decathlon Fryers over 30%. PBI's exclusive Thermo-Tube design heating tubes have durable, stainless steel flow tube baffles, which efficiently transfer the fryer's 125,000 Btu/Hr (31,486 kcal/hr) (37 kW) energy input to the surrounding oil. The energy is channelled into the oil, with less going unused up the vent. Attainment of set cooking temperature is rapid, yet controlled. This controlled heat-up minimizes oil breakdown, reduces idle costs and lowers gas consumption per pound of product cooked.

2600530 PBI Single Chamber Gas Fryer w/ 1 large fryer basket, Auto basket lift cascade filtration system conversion switch NSF/AGA approved. 120 V 60HZ 1PH 17.4 AMPS (270 LBS) 20" x 39" x 52" 125,000 B.T.U

Square Food Containers

Square containers take up 33% less space than round containers! They are clear so you can tell what's inside at a glance. And, they are made from Polycarbonate so they will actually bounce off a tile kitchen floor and not break! We print graduations on the outside so you know how much you have inside. Squares come in 2, 4, 6, 8, 12, 18 & 22 qt. sizes. Optional color coded snap-tight covers feature tabs so that they can be easily removed.

New Models Available! Inquire Today!

1601320 2 & 4 qt. square cover—green
1601350 6 & 8 qt. square cover—red
1601360 12, 18, 22 qt. square cover—blue

1600690 4 qt. square container
1600750 6 qt. square container
1600810 8 qt. square container
1600815 12 qt. square container
1600825 18 qt. square container
1600835 22 qt. square container

Round Food Containers

A traditional favorite in food storage, these round storage containers are so handy. You can store ingredients or transport ready-to-serve or partially prepared foods. There is no guessing what's inside, these are completely clear with red imprinted graduation marks. Because of their shape, the containers allow proper circulation of air which enables them to withstand temperatures from - 40°F to 212°F, (a great way to cool off or freeze large quantities safely and quickly). Made of virtually unbreakable Polycarbonate, the container won't chip, crack or dent from everyday use. Food acids, oils and alcohol won't stain or harm them. Molded-in handles provide an easy grip for lifting containers which conveniently rest on top of each other. Covers are available for "spill-proof" transporting. Dishwasher safe.

More Sizes Available!

1607272 6 qt. round container
1601245 8 qt. round container
1601290 2 & 4 qt. clear cover
1601270 6 & 8 qt. clear cover

Clear Storage Boxes

Food storage boxes' clear finish assure instant food identification and inventory-at-a-glance for premium organization and time savings. Tough Polycarbonate stands up to tough treatment withstanding temperature extremes from - 40°F to +212°F. These boxes stack securely (loaded or unloaded), fit standard carts and racks and are dishwasher safe. Their smooth surfaces are easy to clean and their snap-tight lids are available hinged for easy access.

PBI has over 1100 supermarkets on our Saw and Grinder Plate Preventive Maintenance Service!

Chopper Plates & Knives
An Innovative Idea

The "Double Life Program" consists of three perfectly matched cutting tools, one reversible chopper plate and two bar chopper knives. Each knife is designed to cut meat for several months and be thrown away when dull. The chopper plate is then reversed and the new knife positioned with it. You are then ready for several more months of unequaled cutting.

• Order components separately (2 knives, 1 plate)
• Please state make of grinder and size of plate

EVERSON Spice Co.

Spice up your life®

Blending Quality & Innovation since 1987

Who We Are

Everson Spice Co. is a custom seasoning company dedicated to

Creativity

Quality

Food Safety

& Service.

Our flavor profiles are proven best sellers. We want to help you deliver unique and innovative flavors to your customers, along with ensuring safety and compliance in all of our operations. We are proud to be a BRCGS-certified company, surpassing industry safety standards.

Leading the Way in Food Safety

The BRCGS Global Food Safety Standard has set the benchmark for nearly 25 years. Adopted by over 22,000 sites in more than 130 countries, the standard is accepted by 70% of the top 10 global retailers, 60% of the top 10 quick-service restaurants, and 50% of the top 25 manufacturers.

Now in its 9th edition, the standard has constantly evolved to protect the consumer. It was the first standard to be GFSI benchmarked, as well as introduce food safety culture requirements, define food fraud, and reduce audit burden through additional modules.

Developed with input from industry, it provides a framework to manage product safety, integrity, legality and quality, and the operational controls for these criteria in the food and food ingredient manufacturing, processing and packing industry.

What We Offer

We offer a wide variety of flavor profiles to choose from. With 5000+ formulas available, along with customization & duplication capabilities, we can guarantee the perfect blend for every marketing application.

SOME OF OUR 2024 OFFERINGS

Top Sellers

Mango Habanero BBQ 900-263

Pairs With: *Beef, Pork, Poultry, Seafood, Bowl, Wrap, Veggies*

A balanced blend of Habanero and & Sweet Mango. Not too hot, but not too mild. Perfect for any level of adventurous eater.

Smokin' Hot Honey 900-434

Pairs With: *Beef, Pork, Poultry, Seafood, Bowl, Wrap, Veggies*

Honey infused with Chili Pepper, this is a perfect balance of Sweetness and Heat to enhance any dish.

Carne Asada 900-258

Pairs With: *Beef, Pork*

Driving notes of traditional onion and garlic, balanced with mild herbs, spicy chili notes and tangy citrus.

Sweet & Smokey Thai Chili 900-468

Pairs With: *Beef, Pork, Poultry, Seafood, Bowl, Wrap, Veggies*

Simultaneously a Sweet, Savory, Tangy & Spicy sauce incorporating Red Chilies, Garlic, Ginger, Soy Sauce, Pineapple & Vinegar. We also include Sesame Seeds and a complex layer of Smoke that also helps balance the Sweetness.

Cilantro Lime 900-472

Pairs With: *Beef, Pork, Poultry, Seafood, Bowl, Wrap, Veggies*

This Garden-fresh blend of Jalapenos, Garlic, Onion, and Bell Pepper supports a bounty of Vibrant Cilantro and Lime juice.

Chili Garlic 900-474

Pairs With: *Beef, Pork, Poultry, Seafood, Bowl, Wrap, Veggies*

Our take on the traditional Red Jalapeno and Garlic spiked condiment brings a subtle Tangy Sweetness from Pineapple and strikes a perfect Vinegar balance.

Szechuan Sesame Soy [Spicy Teriyaki] 900-476

Pairs With: *Beef, Pork, Poultry, Seafood, Bowl, Wrap, Veggies*

This Sweet and Spicy sauce is layered with Soy Sauce, Ginger, Garlic, and a palate awakening zing of Traditional Szechuan Peppercorns.
